Patriotic Christmas Shoppers

OUR Government asks your patriotic co-operation during this wartime Christmas period. The call for men to essential wartime occupations is as strong as ever. The transportation of men and military supplies congests every line and almost every branch line in the country—in fact, if every freight train and ship in the country were turned over for the use of the Government for war purposes only, it is a question whether it would be too many.

So you can see that the Government cannot spare men or give transportation facilities beyond the present available means.

They cannot expand the postoffice facilities to meet the mammoth pressure of past years of shipping and delivering in the last few weeks before Christmas.

They have asked through the Council of National Defense that everybody display their patriotism by making November the shopping month so that the terrific strain of past Decembers may be eliminated and postoffices, trains, ships, stores, motor wagons and men, may not be called away from any essential work.

The fact that our have accomplished their job "over there" does not alter the situation over here so far as carrying out the suggestions our Government offers for conservation, thrift, Christmas shopping, etc.

Christmas stocks are now coming in to the store and we bespeak your patriotic co-operation in shopping early.
